STEP - BY - STEP

TIP: I like to work on an Ironing Surface.

STEP 1 - Cut the fabric with $\frac{1}{4}$ " seam allowance or use a Busyfingers template.

STEP 2 - Centre the paper onto the wrong side of the fabric.

STEP 3 - Use the Sewline Glue Pen to glue the edge of the paper.

Keep the glue in from the edge a little.

STEP 4 - Fold the edge over and pull tight around the curve.

STEP 5 - Only fold the 2 outside curved edges.

STEP 6 - Use 3-4 small spots of appliqué glue as shown.

STEP 7 - Lay another apple core over the glued part lining up the edges.

STEP 8 - Continue joining the apple cores in this manner.

STEP 9 - Turn them over and appliqué the curved edges.

Join the strips by appliquéing them together. They will all interlock and the points will all meet.
